

Project 5: CS325 – TSP

Group 4: Ian Paul, Emma Paul, Abdulhalim Bambang

READ ME

Directions for running files:

Running our tsp algorithm file tsp_final.c with a test file (input.txt):

make -> enter

tsp_final input.txt -> enter

vim input.txt.tour -> enter (to see results)

*note: program creates [input].txt.tour if it does not exist, or overwrites it if it already exists

Testing output file:

Running tsp-verifier.py with output file:

make -> enter

tsp_final input.txt -> enter

python tsp-verifier.py input.txt input.txt.tour -> enter

*note: must have tsp-verifier.py and TSPAllVisited.py in working directory

Running watch.py with tsp_final:

make -> enter

tsp_final input.txt -> enter

python watch.py tsp_final input.txt -> enter
